Ralph Phipps and his team were blessed with fine, if rather warm weather, and ran the event without any hitches. We had 179 competitors, including a visit by some elite runners. Heather Monro trounced everyone on the tough Brown course whilst on the White course James Foord (M10) turned in a speed of 7:38 minutes per km-only a tad slower than Heather's average speed of 7:01.

Luke's courses were well planned and generally met BOF recommendations. He had to contend with avoiding the recent areas of forest management but I hope you found them adequately challenging. It was a pleasure to work with Luke on this event.

For those of you who did not punch at the road crossing (122) we had, in the end, to disqualify you, in the interests of fair competition – not forgetting the SCOA league tussles in progress – of which I was initially unaware of. To these and others who mis-punched elsewhere I can only refer you to the mostly younger, but careful runners on the White, Yellow, Orange and Light Green courses where no one mis-punched. Ask them how they do it!

Andrew Chalmers (TVOC), Controller

Thank you for coming and I hope you enjoyed the courses. The majority of the comments I received were favourable, and those that weren't I think I sorted out as soon as I could. If you're in the Hampden area again, keep your eye out for the pheasant, muntjac, kite, fox, squirrels, and the other small mammals that ran too fast for me to identify. It's a beautiful area and even more so early in the morning when the dew is still on the grass. When I went to collect controls there were very few elephant tracks, indeed very few signs that we'd even been there; and that's as it should be. Thanks again.

Luke McNeill (TVOC), Planner

With the current method of organising within TVOC all the organiser's work comes either before or after the event. On the day, with our "team" structure, there's not much for the organiser to do. Being blessed with a sunny day meant that I could catch up on my tan (is that allowable these days?) and make myself invaluable by watching the orange juice diminishing more rapidly than normal.

We had a number of conflicting events on around us and the "Run for Life" at a national level, so attendance was a little lower than we expected and this in turn gives us an interesting challenge with finances. But our events are always "win some and lose some" so it'll probably even out next time.

We're pretty settled in to use of our own EMIT kit now and whilst the debate between this and SI will no doubt continue to rage for some time yet, we hoped you enjoyed the demos on the day and the speedy provision of the results on the [www.emituk.com](http://www.emituk.com) site later that day.

Thanks for coming – see you at our next event

Ralph Phipps (TVOC) Organiser
