

## Organiser's comments

With TVOC's team structure for managing events, the role of organiser seems remarkably easy. Apart from a few emails and phone calls to mobilise the teams, and securing the use of Kings Wood School as an event centre, there seemed remarkably little else to do.

The weather on Sunday was very disappointing, particularly as both Saturday and the Monday were lovely days. However at least the weather was better than in the Lake District! In the circumstances, an entry of over 200 seemed very good.

I was concerned that the wet weather would make some of the chalky slopes in the wood quite slippery. Probably the worst bit was actually the hill down to the start. As it was, I was very pleased that the Red Cross team present had no casualties to deal with.

Thank you to the competitor who took time out from his run to reunite Tinkerbelle with her owner. She was a young puppy who had become very excited chasing after all the runners in the wood, and her owner was becoming increasingly concerned for her safety.

Just one item of lost property – a pair of children's wellington boots, silver / black with pink inside. Contact me on 01494 816946 or [alunandliz@tiscali.co.uk](mailto:alunandliz@tiscali.co.uk) to arrange their return.
