

Green Park Saturday 8th December 07

Congratulations to the twenty or so intrepid competitors who braved the weather conditions to take part in this event. The organisers would particularly like to commend the juniors who braved the cold and wet and who should all be very proud of their achievements.

'Green' was an 'all controls' score course

Thanks to Peter for making the most of this interesting venue, and to Mark who helped put out and collect the controls.

Apologies from registration if your names or details are not quite correct - this arises from a combination of bad handwriting and a soggy entry list.

We hope to see you at Wendover next Sunday and/or at future Saturday events.
